

WISCONSIN IS REPUBLICAN BY GOOD SAFE MAJORITY FOR THE WHOLE TICKET

DANCROFT DEFEATS HIS OPPONENTS DESPITE EFFORTS OF REPUBLICAN STATE CENTRAL COMMITTEE.

BERGER GOES TO CONGRESS

Social Democrats Carried Milwaukee County and Elect First Social Democrat Member of the Lower House at Washington.

[BY ASSOCIATED PRESS.] Milwaukee, Nov. 9.—Wis. is safely republican by a majority that will range between forty and sixty thousand for the head of the ticket, Frank McGovern. With him will go the whole republican state ticket, Levi Dancroft, of Richland Center, the republican candidate for attorney general, whom the LaFollette leaders tried to defeat with Crowhart, Senator LaFollette's personal campaign manager.

The legislature will be strongly republican which insures the re-election of Senator LaFollette next January and will have a safe working majority for any of the many reforms that were contemplated in

publican nomination for Governor and twelve assemblymen from the county. In the state at large the republicans elected eight republican congressmen without much opposition, the democrats one, the social democrats one and Quastman, in the Ninth, republican, will probably be re-elected, but the vote is still in doubt.

The constitutional amendments providing for the reappointment of senate and assembly districts; increasing legislators salaries, and providing for the appropriation for the preservation and development of water power and forests are said to have carried.

Final Results. The republican victory in Wisconsin is today spelled as follows: With McGovern for governor by 60,000, won the entire state ticket including Dancroft for attorney general. In the legislature there will be 99 republicans, 29 democrats and 14 socialists, which insures the return of Robert M. LaFollette to the United States senate.

In the assembly the republicans have 72, the democrats 18, and the social democrats 12, while in the senate the republicans have 13, the democrats 4, and the social democrats 1.

DEMOCRATS HAVE GAINED CONTROL OF THE NEXT CONGRESS AND HAVE TWENTY-FIVE AS WORKING MAJORITY

REPORTS FROM VARIOUS PARTS OF THE COUNTRY SHOW DECIDED DEMOCRATIC GAINS.

NEW YORK STRONGLY FOR DIX

Iowa Has Apparently Been Carried by the Republicans, With Ohio and Indiana in Doubt.

[BY ASSOCIATED PRESS.] Republicans, 157. Democrats, 221. Socialists, 1. Missings, 12. Total, 391. Gain by democrats, 55. Gain by republicans, 6. Not gain democrats, 49. Necessary to control, 196. Present democratic membership, 172. Working majority for democrats, 25.

[BY ASSOCIATED PRESS.] The sweep of the political tidal wave which rolled over the country yesterday is further emphasized by the additional returns and revised figures today. The democratic majority of the next house will be at least 42, and possibly more, compared with the present republican majority of 43. Added to the reversal of the lower branch of congress this morning, the returns showed the republican major-

defeated in the first district by Frank E. Doran, a democrat, and Representative Dinkema was defeated in the fifth by Edwin F. Sweet of Grand Rapids.

Osborn for governor has a majority of 40,000 and the remainder of the republican state ticket, 50,000. An overwhelming republican state legislature will elect Charles E. Townsend of Jackson to succeed Senator Hurrows.

William B. Thompson, a democrat, was elected Mayor of Detroit by 5,000 majority.

Ohio Situation. Columbus, O., Nov. 9.—The Democrats today reiterate their claim to the Ohio legislature as democratic by 12 to 18 and that a democratic senator will succeed Dick. Judson Harmon, Democrat, majority for governor continues to increase as latest returns come in.

Iowa Doubtful. Des Moines, Iowa, Nov. 9.—The Daily Capital with estimates based on the scattered precincts of 37 counties, predicts the re-election of Gov. Carroll, Republican, by 3,000. Porter's "democrat" adds claim he will have 10,000 plurality at least.

Earlier Report. Des Moines, Iowa, Nov. 9.—Iowa awoke under the democratic landslide this morning and for the first time since 1880 will have a Democratic governor. Porter is elected over Carroll by 15,000.

Is Iowa Safe? Des Moines, Iowa, Nov. 9, 3 p. m.—Returns from 722 precincts indicate the re-election of Governor Carroll. These precincts wipe out Porter's gains in the cities and give Carroll a lead of 2,775 votes.

Later Reports. Des Moines, Iowa, Nov. 9.—Five hundred precincts out of 2,300 give Porter, the Democrat for governor, a plurality of 2,022. This shows a marked decrease in the Porter vote, as the result of the vote comes in.

In South Carolina. Raleigh, N. C., Nov. 9.—The Democrats today seem to have swept the Republicans clear out of North Carolina. Latest returns indicate the actor are indicated from complete returns early today.

Helena, Mont., Nov. 9.—The Republicans have made a clean sweep in this state and insured the re-election of Thomas Carter, to the U. S. Senate.

Omaha, Nov. 9.—Returns from 400 precincts in Nebraska give Aldrich, Republican for governor, a majority of 9,000. This wipes out Dahlman's majority in Douglas county and assures the election of Aldrich.

Early Indiana Reports. Indianapolis, Ind., Nov. 9.—Both parties claim the legislature. Thomas Taggart, the former chairman of the democratic national committee, claims fourteen majority for the democrats and declares John W. Kern will be elected senator. Senator Hovvledge is confident the republicans have ten majority on the joint legislative ballot.

Caustic Remarks. New York, Nov. 9.—The New York Times published the following comment on the results of the election today:

"Seized by the heels in its very infancy, 'New Nationalism' has been pitched into its grave."

The Herald says, "The people have expressed their opinion of Roosevelt." The Sun says, "The air is much clearer this morning. St. Helena is distinctly visible."

Refuses to Talk. Washington, D. C., Nov. 9.—President Taft arrived at 8:45 A. M. It

was announced he had no statement regarding yesterday's election.

Strange Fact. New York, Nov. 9.—Roosevelt "support" seems today to have spelled defeat for the republicans; the country over, and Roosevelt's opposition seems to have brought success. The only one of Roosevelt's friends for whom he made an open fight, whose fate is at all in doubt is Senator Beveridge of Indiana, and indications are he has gone down with the rest.

In Retirement. Oyster Bay, N. Y., Nov. 9.—Col. Roosevelt went into temporary retirement today. When sought by newspaper men at his home here, Roosevelt gave orders to admit no one and incidentally told them there was nothing doing.

their platform. The returns from some of the counties are meager as yet, but enough have come in to give the state to the Republican columns without any question.

The one surprise in the election of Victor Berger, the social-democratic leader, to congress in the Fifth district which includes part of Milwaukee and Waukesha counties over Henry Cochems, one of the LaFollette republicans. In fact, the man who nominated the Wisconsin Senator in the Chicago convention, for President, Berger's election is claimed by 300, with some of the Waukesha county precincts to be heard from at noon.

Should they bring the election to a much closer battle it is probable that Cochems will demand a recount which will leave the matter undecided for some time although at present Berger is conceded the election. Carney, the democratic candidate, ran a bad third. The same was true in the Fourth district where Cary, republican, won from Gaylord, social democrat by a narrow margin with the democratic nominee, Korschaw, a bad third. In addition to this the social-democratic swept Milwaukee county by a decisive vote of from three to six thousand, capturing all the county offices, defeating McGee, LaFollette republican for district attorney and Knoll, staunch republican for sheriff, by good margins. They also elected one state senator to succeed Fairchild, who was a candidate for the re-

The republicans have 14 hold-over senators and the social democrats have 1. The congressional delegation from Wisconsin will contain 9 republicans, 1 democrat and 1 social democrat.

Is Kuostermann Elected? Green Bay, Wis., Nov. 9.—Latest returns from the ninth congressional district at noon today gave the election to Kuostermann, republican, by three votes over Thomas Knapp, his democratic opponent. Early returns indicated Kuostermann's election by a narrow margin, but later returns from the rural district out the normal republican majority and with Marinette and Outagamie counties to be heard from it was reported this morning that Kuostermann had won.

Knapp led the race by 500 votes. Returns today from Brown county indicated today Kuostermann lost that county by 500 and Kowatone county by 1,000. Door and Oconto counties gave him pluralities of about 400 each.

Claim Knapp. Appleton, Wis., Nov. 9.—The Green Bay afternoon claims Thomas F. Knapp, a democrat, was elected over Kuostermann, the republican candidate from the ninth district, by 265, Berger's statement.

Milwaukee, Nov. 9.—Victor Berger, Socialist, who it is thought, has defeated Cochems, Republican, in the Fifth Congressional district, made a statement today in which he declared he will go to Congress in the interests of the working class of America.

"I deeply feel the honor of having been selected as the first representative of the Socialist party and of the working class to the congress of the United States. I also deeply feel the responsibility. However, I understand, I am simply a means to a great end, and the working class of Milwaukee by sending me to Congress, dignified itself in making history."

VICTOR L. BERGER, Whom the Socialists Elected to Congress.

Inasmuch as Milwaukee carries a considerable vote in the Fifth district, in which Mr. Berger ran for congress, it is not surprising to many that he was successful. Mr. Berger is recognized as the man behind Mayor Soldo in Milwaukee and is an ardent leader among the socialists. If he is elected it will be the first time a man belonging to the socialist party has sat in the halls of the United States congress.

Significance of Wedding Cake.
The wedding cake was (and is) the most important feature of wedding feasts. It was supposed to insure the bride and groom from poverty, at least of table. Wheat or corn used to be used for the same reason, either in the decoration or by the bride's carrying a few stalks in her hand through the wedding ceremony.

Artificial Indigo Hurtle Trade.
Owing to use of artificial indigo manufactured in Germany the production of natural indigo has greatly diminished in East India. The latter country last year exported only 65,000 hundredweight of this article, against 270,000 hundredweight in 1897.

What will your business be three years from now? Will it be just what it is today with but a small increase in volume? Or will you make it a big, live, hustling institution doing 60 per cent more business? Begin today to make improvements and to educate the public to the particular reasons why you should be patronized. The newspaper is the great public educator.

M'GOVERN AND BANCROFT BOTH HAD PLURALITIES

ENTIRE REPUBLICAN TICKET CARRIES THROUGHOUT ROCK COUNTY.

SMALL VOTE WAS CAST

Some of the Results of the Election Which Was Held Yesterday—Prohibitionists Lose Numbers.

While there never was any question as to the possible outcome of the election in Rock county will it be gratifying to know that M'Govern, the republican nominee, received the substantial plurality of two thousand and more over Schmitz, his democratic opponent. This with the light vote out, speaks well for Rock county republicanism as in 1906, the last presidential year, Davidson's plurality over Alward, Democrat, was but a few hundred more. M'Govern had a total of 3094 to Schmitz 1079, the total vote in the county on Governor being only 4704.

Another gratifying result was the vote that Judge Levi Bancroft received for attorney general. Despite the efforts of the republican state central committee and in the face of the overwhelming vote for La Follette at the primaries, their efforts to defeat Bancroft and elect Crownhart, failed and Bancroft received a total of 2427, Doherty, Dem. candidate, 869; and Crownhart 725, a clean plurality for Bancroft of 1557 in the county.

In the assembly districts there was but little opposition. Gottle in the first had a total of 961 to 26 for Nelson, the social democrat candidate. Grant Fisher in the second had a total of 844 against Lamb's 352 and Simon's 49 while in the third district Simon Smith, republican had everything his own way.

The City of Janesville in its vote for Governor gave Schmitz, 444; Van Kesteren, 74; M'Govern, 867; Jacobs, 105; and Kremer, 8. For attorney general the city voted as a whole: Doherty, 420; Bancroft, 705; Thorn, 82; and Crownhart, 144. On the question of the three amendments the city decided against the first amendment, to increase the legislator's pay by a vote of 180 to 258, accepted the second on the list to make new districts by a vote of 206 to 172 and also the third, for the conservation of the state's natural resources by a vote of 299 to 102.

Another interesting fact in the election returns is the Social Democratic vote. While Social Democracy has captured one seat in congress and many legislative places as well as city and county of Milwaukee in Rock county they only showed a gain of 19 in the past two years. Their total vote yesterday was 281, while two years ago it was 261. The prohibitionists showed a loss. Their vote in 1908 was 402 and yesterday was 238.

The whole republican county ticket was re-elected. Many have majority greater than the head of the ticket.

A Great Character.

A great character, founded on the living rock of principle, is, in fact, not a solitary phenomenon, to be at once perceived, limited and described. HOT WATER BANDAGE

Rubber Hose Can Be Coiled Around Swollen Member and Stay.

A most ingenious invention in the hot water bandage devised by a Pennsylvania man and widely and here illustrated. It can be coiled around any part of the limbs and body that requires treatment and will stay in place. As will be seen, the device consists of nothing more than a rubber hose, one end of which is equipped with a stopper and with an elastic cord which joins both ends. The tub is filled with hot water and the stopper inserted. It is then coiled around a sprained ankle or wrist.

INDISPENSABLE FOR SPRAINS.

As the case may be, and held in position by the elastic cord, the sprain is held in position, is practically indestructible, as it will bring about a reduction of the swelling of the sprained member in a very short time. The hot water will not retain the heat as this tube of hot water will, and there is no way of making the old-fashioned hot water bag reach all the points of inflammation at once, as this new invention does.

Wood From Sawdust.

From the sawdust of the mills in general an artificial wood has been made through a combination of heat and hydraulic pressure which is promising for the era of artificial woods. It is harder, devoid of grain, susceptible to a high polish, and in many ways approaching the qualities of ebony and mahogany.

Singular and Plural.

Whenever she gets to thinking how much they're in debt it affects her nerves." "That's the way it affects her husband is singular." "How singular?" "Just singular, it affects his nerve." He tried to borrow a hundred from me to-day."—Catholic Standard and Times.

Municipal Music Hall.

Among the various "public utilities" owned by Yarmouth, England, is a music hall, out of which the municipality made nearly \$4,000 last year.

True Wisdom.
I believe in trusting a man when I have got a man I can trust.

Natural Fly Catcher.
One of the most successful flycatchers in the world, it is not generally known, is the familiar milkweed blossom. The bloom attracts the flies in great numbers from a distance, only to imprison them. The peculiar sticky nature of the flower quickly entangles the fly and from its embrace there is no escape.

Paid High Price for Stamps.

A London philatelist, envying some curious specimens in the album of an elderly London acquaintance, offered a dozen times to buy or exchange for the coveted treasures. Unable to secure the prizes in such ways he finally proposed matrimony and so came into possession of the lady and her stamps.

"I have been suffering for the past three years with catarrh, and had used almost everything in the market until I read of your wonderful Peruna remedy. After using two bottles of Peruna I can cheerfully recommend it to any one having the same disease."

"I was almost compelled to give up my business, until I used your remedy, and I have never been bothered with catarrh since."

"People who object to liquid medicines can now secure Peruna Tablets. Sold by druggists, and manufactured by The Peruna Drug Mfg. Co., Columbus, Ohio. Man-a-lin an Ideal Laxative."

This Stage Last Has Cloth Top

This very classy Julia Marlowe foot is a great favorite in large cities. It's made in patent leather, with cloth top in several colors.

It's modeled on Rich's Famous Stage Last, giving it that very small, dainty appearance without the least bit of discomfort. This smart style is always in good form for afternoon and evening wear.

And you can get all this extra quality without paying a cent more than ordinary shoes cost. We have the complete line.

BROWN BROS.

Hairpins Are Ancient.
Women used their hairpins a thousand years ago much in the same way as they do today. That, at least, is the impression one gets from the antiquities found during the last year at the Silchester (England) excavations. The most interesting discovery was the building which formed apparently the small altar, portions of capitals and bases, part of a large basin of Purbeck marble and some singular pieces of metal.

Comforting Assurance.
When George III. was crowned king of England the ceremonies were marred by certain blunders for which Lord Bellingham, earl marshal, was responsible. Lord Bellingham saw it afterward to apologize to the king. "There will be no such blunders at the next coronation, your majesty," said he. King George had a sufficiently strong sense of humor to laugh.

Friendship.
To be a strong hand in the dark to another in the time of need, to be a cup of strength to a human soul in a crisis of weakness, is to know the glory of life.—Hugh Black.

Total Number Was 270 Which is a Marked Decrease From That of Primary Day.

[SPECIAL TO THE GAZETTE.]
Edgerton, Wis., Nov. 9.—A very light vote marked one of the quietest election days Edgerton has ever seen. The total number of votes cast was 270, a marked decrease from the number at the spring election and at the primaries. There were over 600 votes polled at the spring election and nearly that number at the primaries.

Buy Dancing Privileges.
A custom that has existed for some centuries is still maintained in certain towns on the lower Rhine. Early in the year—an auction day—the town clerk or clerk calls all the young people together and, having chosen attractive maidens, sells to the highest bidder the privilege of dancing with them, and then only, during the entire year. The fees go into the public poor box.

History of the Potato.
The Spaniards met with the potato in Peru, where it had long been cultivated by the natives, but it was well nigh a hundred years before it was taken over to Europe. In 1587 we hear of its being introduced into Spain, while in the previous year Sir Walter Raleigh began to cultivate it in Ireland from seed which was taken over from North Carolina.

Corpse in Water Reservoir.
The dead body of a woman who had committed suicide having been found in one of the reservoirs from which London is supplied with water, the contents, amounting to 50,000,000 gallons, had to be allowed to run to waste.

Morning Glory Megaphones.
The day of the brass megaphone is over. The latest thing in a megaphone mouthpiece is one built like a big morning glory and colored accordingly, red, white or blue. They are very showy and dealers expect a big sale for them.

To Tell Murder from Suicide.
Dr. Wain, city of London coroner, said in a lecture recently that a weapon in the hand of a man who had been murdered is always tightly grasped, so that the fingers sometimes have to be severed before it can be released. In the case of suicide there is no grasp at all.

Wear Fewer Corsets.
Vienna is experiencing a slump in corsets. The chamber of commerce attributes the great decrease in their manufacture during the year to the publication of a medical opinion condemning tight lacing, and also to the extension of the "reform-kleid," or rational dress. All corset factories have reduced the number of their employees and some have closed altogether.

THE POLITICAL LANDSLIDE.

The expected has happened, and democracy is again to the fore with a smiling countenance. The defeat of the republican party is significant in more ways than one. As a general proposition the tariff and high cost of living will be given credit, but other causes contributed.

The issue in New York was not political. It was a Roosevelt issue pure and simple. The business and commercial interests of the state have long been dissatisfied with him and when he entered the political arena as a dictator, the opportunity was ripe to express disapproval, and they expressed it with a vengeance. Just how this rebuke will affect the Colonel's political future, time will determine, but it is safe to assume that the Empire state will not encourage his ambitions, and a change of residence to the more congenial western climate may be necessary to keep him in the limelight.

There are many people outside of New York who have become a little weary of the man with the big stick and the "how nationalism" which he attempted to exploit, and the good which he has accomplished is in danger of sharing the fate of Dewey and Hobson.

In the first flush of excitement the progressives and insurgents claim a semblance of victory, but if there is any glory in the defeat of the republican party, to which they are indebted for honor and preferment, they are entitled to it.

Many of their own candidates are engulfed in the landslide and the remnant that will appear in the new congress will not be consulted to any large extent, as democracy will be in control and the party will need no alliances and will make none, neither in the House or Senate.

The democratic party, which won such a signal victory yesterday, is the old line party, free from any tincture of Bryan or Bryanism. The only reason why it did not sweep Wisconsin as it did Iowa, and a number of the middle west states, was because it was not organized. The party had no ticket in thirty-four counties, because it lost identity by flitting with the great uplift movement.

Old line democracy owes its victory largely to republican support, both in New York and throughout the country. Many republicans feared the

"new nationalism" as much as they feared insurgency, and so cast their lot with the party which has some regard for conservatism.

There will be plenty of time for sober second thought, for the national election of 1912 is not so far away and if democracy has any opposition worthy of the name it will be because republicans spend more time in reading men into the party than they do in reading them out.

The independent voter and republican boss have had their innings, and party wreckage is the result. It was possible in Wisconsin for a dead man to secure a nomination at the primaries, but not possible to elect his representative as an independent candidate, with the same endorsement.

Wisconsin enjoys the distinction of electing the first socialist to congress, who was ever honored with a seat in that body, and Mr. Coehens, his defeated rival, knows how it happened and is not happy.

The country will survive and out of the general mix-up will dawn a better day undisturbed by the policy agitator and self-righteous reformer.

DENATURED ALCOHOL.
What has become of the much exploited alcohol industry which was to revolutionize the fuel business and put the Standard Oil company out of commission?

When the bill which provided for this new discovery was being worked through congress it was predicted that every farmer would have a still of his own and the product would flow with the hog in the consumption of corn, but the present price of bacon and other swine products indicates that the hog has been able to hold his own.

Denatured alcohol was a fad and on a par with a lot of reform legislation of recent years. The Wall Street Journal, in discussing the question, says:

"Subsequent history plays and havoc with arguments once used in support of legislation. When congress passed the denatured alcohol bill the benefits to the farmer were urged among the principal considerations to secure the enactment of the law. It was claimed that the act would enable the farmer to utilize much of the low grain for the manufacture of alcohol. As a by-product of his cereal crops it was figured that the advantage would run up into millions of dollars, and thus make it well worth the farmer's while to establish an alcohol plant on his premises.

"Inquiry shows that comparatively few farmers have become manufacturers of this highly technical product. Probably excise and tax have acted to some extent as a deterrent. But it is much more likely that the process is altogether too technical, as well as too expensive for the average, or even the unusual farmer. It takes several thousand dollars to erect even a moderate sized denatured alcohol plant. That in itself must settle the question for probably 95 per cent of the farmers of the country.

"Another argument was that it would afford an article competitive with the products of the Standard Oil company. But the Illinois Agricultural college has been experimenting with the result that gasoline is found to be cheaper than alcohol in the production of power in small engines. Whether other people, in whose behalf the bill was passed, have been equally disappointed, is not yet evident. It was urged that for illumination purposes this product would become as important here as it was in Germany. There is little sign of anything of the kind, for probably the same reason, that petroleum is still the cheaper illuminant.

"No doubt, however, much good has been done in cheapening alcohol for scientific purposes. But that was not the chief argument at the time when the farmers of certain portions of the country were bombarding members of congress with postal cards, as if it were a question of denatured alcohol or political death."

THE WRONG WAY.

Consensus returns for the state of Iowa show that the commonwealth has lost in population during the past decade, and the revelation is not very comforting to citizens of the Hawkeye state. Two or three reasons are given for the shrinkage.

One is that the state is largely agricultural and that much of the work formerly done by hand is now done by machinery, and so the young men and surplus labor has left the state for the cities, or to take up cheaper lands in the north and west.

Another is that the state has no large centers of population, and aside from Des Moines, the towns and small cities show but little growth.

The trouble with Iowa is apparent to any man familiar with the policy adopted and vigorously pursued when the state was young. During the days of the Granger legislation the railroads were the target for all sorts of freak measures and the embargo placed upon these corporations resulted in bankruptcy for every road in the state except the trunk lines.

This was not the worst feature, for in tinkering with freight schedules on what was known as the long and short haul, rates were made which drove out of the state most of the manufacturing industries.

The city of Milwaukee does more manufacturing today than the entire state of Iowa, and as towns and cities are dependent upon industries for growth the state suffers and will continue to suffer until industries are encouraged.

Another American hero took a toboggan slide yesterday when New York stood up and took notice. A little wisdom on the part of the passenger might have saved the bump. The Saratoga convention was "beat to a frazzle," but the Empire state is a larger aggregation.

Mr. Bryan is no longer in a receptive mood. The democratic party has shaken off the harness, and has again come into its own. How long it will maintain supremacy, depends on the wisdom of the only party which has ever been able to cope with it successfully.

The vote on the bridge question was smaller than at the primary election, because the entire vote was lighter, but the same spirit of progress was expressed in no doubtful terms.

The people down in Danville seem to have a wholesome regard for "Uncle Joe" Cannon. The old gentleman will be a spectator in the new House, but people will know he is there.

If it is possible to libel a man politically Judge Haneroff ought to have a good case.

Heart to Heart Talks.

By EDWIN A. NYE.

WHAT ARE WE HERE FOR?

Are we here merely to wear clothes and eat and work and sleep betimes, merely to be enumerated in the census, pay our taxes and vote the party ticket, to buy and sell, to suffer and to laugh, to find and fall, to fume and flout, to live and die?

We go about as if it were a feat to make a decent living, pay our debts, give a dollar for charity and keep out of the penitentiary. But—

Is that all? True, we must live without stealing, and we must live somewhat as others do. We must sweat and labor and put money in our purse. We must do and be done. The grocer and baker and candlestick maker must have their due.

But that is not all. We are here because others are here. We all came in obedience to the same law. If others were not here we would not be here. We are all in the same boat, sailing in the same direction. Being fellow voyagers, what happens to one affects us all.

Now, manifestly the power that put us here intended we should live and die together. Destiny has put the same timeline about us all. And, whether we realize it or whether we go hand in hand, we go. We must leave our fellows to the grave, and they in turn must hold the grave straps for our comfort.

What are we here for? There is but one answer. Try to find it and find it. We are here to help our fellows and to be helped by them. We all belong by right of birth to one big mutual insurance society.

To live to yourself and to die to yourself would give no meaning to life.

No. We are here to help and be helped. Some are crippled in body or mind or heart. We must give them a lift. Some are hungry and athirst. We must minister to them. Some fall among robbers on the Jericho road, and we must bind up their wounds and take them to an inn and pay the landlord's bill.

Some yearn for sympathy. We must give it. Some weep, and we must wipe their tears away. Some laugh, and we must laugh with them. Some die, and we must bury them.

And here we find the reward and the solution of our problem. We discover in our service for others the significance of life. Purposes appear. The sequel is hinted at. And we no longer need to ask, "Is life worth living?"

To learn this simple lesson of service and to practice it is to say with the glad philosopher: "Eureka!"

THE POET PHILOSOPHER

By WALT MASON.

(Copyright, 1909, by George Matthew Adams.)

When you leave your downy couch with a big throesombed groan, and you begin your morning's labors with the manners of a bear, then your friends will wish you'd slide to the forest wild and wild, and like any other brute, do your growling in your lair. I have figured it this way: If I want to spend my day, if I want to fuss and clamor till my jaws are ached with foam, I should my shoes and coat, and kick up a holy rumpus till the cows are coming home. For I haven't got the right to go amping, day and night, making life a weary burden to the people that I meet; and although my nature's done, and my temper hard and sore, I have made some folks imagine that it's reasonably swell! Life is more or less a bluff, and pretension is the stuff; just pretend that you are gentle, though you're savage as a bear; just pretend that you are kind, and the people are so blind that they'll say you are a daisy, and they'll prize you everywhere!

PATERSON'S SILKEN JUBILEE IS OPENED

Industrial Expo Showing Strides Made in Industry During a Century. Will Be in Progress 10 Days.

Paterson, N. J., Nov. 9.—Marking the one hundredth anniversary of the beginning of silk manufacture in America, there was opened in Paterson today an industrial exposition to show the great strides that have been made in the industry during the century. The exhibition and attendant celebration will last ten days. Every process in the industry is demonstrated in the exhibition, from that of spinning the minute thread from the cocoon, through all the steps of doubling, reeling, filling, warping, dyeing, weaving and finishing.

Paterson has for many years been the chief center of the silk industry in America, though it was not here that in Massachusetts, Conn., that the first silk mill was established in 1810. In Paterson there are now nearly 300 separate silk firms, thirty-two firms having started in the business within a year. The value of the annual product of the great mills is \$30,000,000, and 40,000 men and women keep 21,000 looms spinning in order to help the American woman retain her title of the best-dressed woman in the world.

Sugar from Old Rags.

Sugar is now manufactured in Germany from old rags. The rags are treated with sulphuric acid and converted into dextrine. UNCONSCIOUS IN HIS ENGINE CAB**CHAS. STEARNS STRUCK DOWN IN A MYSTERIOUS FASHION NEAR BROOKLYN.****HAD JUST REVERSED LEVER****Lay As If Dead When Fireman Nelson Took Notice—Cannot Explain What Happened.**

Engineer Charles Stearns of Austin, Ill., was on a cot in the baggage car when the C. & N. W. passenger train from Evansville arrived here about 9:25 this morning. He was struck in some mysterious fashion on the right side of the head just after he had pulled out the whistle and reversed the lever at Brooklyn and the fireman looked around a few moments later to see Stearns lying unconscious on the floor of the engine cab. The train crew worked over him some time before any sign of life showed their efforts and had Baraboo telegraph Dr. Smith at Evansville to be in waiting at the station.

Fireman Nelson took the engineer's post and brakeman Cannon was called upon to act as fireman. With the assistance of Conductor John Whitney they brought the train through to Janesville.

Mr. Stearns did not fully recover consciousness until he reached Evansville. City Marshal Carl Broughton who met the train and secured a cot for the injured man says that he did not fully recover consciousness until he reached the C. & N. W. station and was then utterly unable to explain what happened to him or how he came by the big lump on the right side of his head.

Some of the trainmen were of the opinion that he might have been struck by the lever, but it is hard to understand how this could have happened when the lever was on the left side of him and the impact came on the right side of his head. Fireman Nelson remembers that the locomotive was near the stockyards and not far from a schoolhouse when the accident occurred shortly before nine o'clock and it is possible that someone may have thrown a stone through the cab window.

Mr. Stearns is a brother-in-law of Otto, Edward O., and Don Smith of this city and is about fifty-five years of age. It is thought that a few days in a Chicago hospital will bring him around all right and that there will be no lasting ill effects from this strange experience.

LUNCH WAGONS MAY HAVE TO MOVE ON

Complaints for Violations of Fire Ordinance Filed Against Five Lunch Wagons in Court Today.

Complaints for violations of the ordinance regulating the construction of frame buildings within the city limits were filed by Chief Klein in municipal court this afternoon against A. Newell, Safely Bros., Varg Bros., Louisa Papa and Charles Carpenter. The four first named are supposed to be the owners of confectionery stands and lunch wagons that have been anchored in the vicinity of the Y. M. C. A. building and railroad depots. The Vargs are said to have put a four-inch brick veneer around their structure, whereas the ordinance requires an eight-inch wall. Charles Carpenter is cited to appear for having erected a frame structure back of the Railroad hotel.

George Palmer of Milton, Who Was Shot in Leg, Seeks to Recover From Carroll L. Smith, the Bridegroom.

Before a jury composed of John DeGree, Knute Logan, J. R. Lamb, G. H. Hillington, Charles Blackwell, Frank Miller, W. L. Paul, Norman Hunt, V. C. Holmes, Harry Keler, H. O. Anderson and W. G. Alexander the trial of the town of Milton damage action of George Palmer vs. Carroll L. Smith was commenced in circuit court this afternoon. The plaintiff is supposed to have participated in an unwelcome charivari on the defendant's marriage, June 16 last, to Miss Evelyn Whitford and to have received a bullet in one of his legs about midnight. The defense admits that Smith fired a rifle out of his window four times when he saw two men sneaking about his carriage shed but denies that he aimed at anybody and insists that Palmer, who claims not to have been in a quarter of the yard within range of the window, was hit by one of at least two other shots that were fired. Attorneys J. J. McManamy of Madison and J. J. Cunningham represent the plaintiff and Charles Pierce, the defendant. Carroll Smith was the first witness to take the stand and was examined adversely.

SHAKESPEAREANS IN LORD MAYOR'S SHOW

Princes and Nobles of the Plays March With Soldiers and Boy Scouts and Life-Boat Men.

(Special to THE GAZETTE.)

London, Nov. 8.—The time-honored Lord Mayor's Show took place today, and the new Lord Mayor of London, Sir Thomas Vezey Strong, for formally installed in office, succeeded Sir John C. Kell. The old established custom showed little sign of becoming obsolete, and owing to some unusual and attractive features in the procession the occasion was the most interesting of recent years.

The principal feature of the parade was a pageant of kings, princes, nobles and other characters of Shakespeare's plays arranged under the direction of Philip Carr, of the secretariat of the Shakespeare Memorial Theatre. The characters were represented in five groups, each containing about fifty performers in gorgeous costume. Another interesting feature of the procession was the military display, in which were represented for the first time the Territorial Force and the Boy Scouts. Other divisions of the procession were made up of the city firemen, the foresters, lifeboatmen, members of the London volunteers, the court of aldermen, the members of the civic societies, together with a large number of representative citizens. The new Lord Mayor and his predecessor were in the customary gorgeous carriage of gold and enamel, drawn by eight white horses with outriders in scarlet livery.

The route of the pageant extended from Guildhall to the Law Courts, through Princess street, Queen Victoria street, St. Paul's Churchyard, Ludgate Hill, Fleet street and other prominent thoroughfares. Along the route the usual hunting and decorations were displayed.

Among his fellow aldermen Sir Vezey is regarded as particularly fortunate from the fact that he is to hold office at the time of the King's coronation next June and is certain to receive a baronetcy as a memento of the occasion.

He will have no active part in the great ceremonial attending the coronation, nor for that matter will any of the duties of his office be of an arduous nature. The City of London, over which he is elected to rule, is not great metropolitan London, the largest city in the world, but a very insignificant part of it, so far as territory and population are concerned. It lies between the town of London and Westminster Abbey and contains only 484 acres and a population of about 50,000 people. There are many wards in the larger American cities that are of greater territorial extent than this famed city. It is divided into twenty-six wards, some of which cover but a few acres of ground, the largest of them having but few voters. Each ward elects an alderman, who serves for life, and in due time becomes Lord Mayor with a salary of \$50,000 and an immense amount of patronage.

The new Lord Mayor is essentially of London, having been born in one of the city wards, where his father lived over his place of business. He was educated privately and is accredited with being a self-made man. In business he has been successful as the head of a large paper supply concern. He is a pronounced tem-

perance advocate and enjoys the distinction of being the first teetotaler chosen as chief magistrate of the metropolis.

DR. COOK A SWINDLER, RASMUSSEN'S REPORT

Eskimos Who Were With American Say He Did Not Reach North Pole.

London, Nov. 8.—The Daily Chronicle prints Rasmussen's report of Doctor Cook's journey to the North Pole as narrated by Cook's two Eskimo companions. The narrative shows that Cook made a circular excursion in a district of the Arctic regions quite familiar to previous explorers.

The report indicates that Doctor Cook went no farther north than Holburg, which is 500 miles from the North Pole, and that for the greater part of the journey he traveled along a westerly and southwesterly route before returning by way of Smith Sound to Greenland.

The explorer writes in part as follows:

"Already in the fall of 1909, when I was on an expedition to Greenland there existed grave doubts as to whether Doctor Cook had been near the north pole and I made up my mind to secure through thoroughly disinterested people a bona-fide report of his Eskimo fellow travelers, Itakukuk and Apilah.

"These young men belong to a tribe near Smith Sound, the members of which still live the life of savages. They possess no written language and therefore I had to get somebody to write down the young men's report. Rev. Gustav Olsen and Katokot Sechmann Rosbach, both born in Greenland and newly-arrived missionaries to this tribe, did the writing. Further, I received from the manager of a copper mine in Greenland, a man named Nyboe, assistance in getting the report. In the fall I forwarded a letter from South Greenland by sledge to the missionary station and the letter reached its destination in the winter.

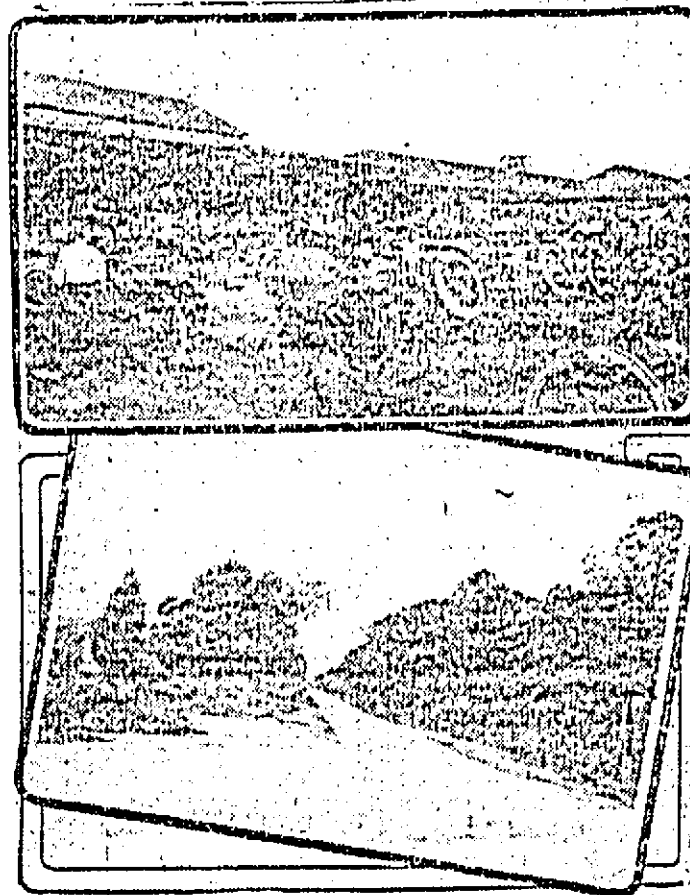

"On my arrival at North Star bay this summer I found the report in the Eskimo language awaiting me containing the narrative given by Doctor Cook's companions to Rev. Mr. Olson. I myself have not seen the young men since they returned with Doctor Cook, but I know them from earlier times. They are clever and trustworthy men and I consider their report, obtained by wholly disinterested persons, on the question of the reaching of the north pole by Doctor Cook, more valuable than any I myself could have obtained."

OFFICIALLY PLACED BAN ON POLYGAMY IN MORMON CHURCH. At left, Francis M. Lyman; at right, President Joseph F. Smith of the Mormon church.

Salt Lake City.—One of the most far-reaching manifestoes ever issued by the Mormon church is one absolutely forbidding polygamous marriages. Francis M. Lyman, president of the Quorum of the Twelve Apostles, issued the order, which is couched in no uncertain terms.

The manifestoes of President Woodruff forbidding polygamous marriages was made a law of the church in 1904. The present order calls attention to this and warns all Mormons that any violation of this order will subject the actor to the wrath of the church. An extract from his manifesto reads as follows:

"There is not a man on earth today possessing the authority to perform plural marriages. We want every one of you to clearly understand this, the waters particularly. Plural marriages are unrighteous and unlawful now. We doubt the constitutionality of the laws, but they have been tested and sustained in the courts, and we must obey them."

Hints on Cleaning the Sink
 Every sink should be provided with a three-cornered sieve made by covering a metal frame with very fine netting. When water is thrown into the sink it should be turned into this sieve, preventing the solid matter from getting into the pipes and causing trouble. Each time the dishes are washed the sink should be carefully cleaned. The quickest way is to dissolve a teaspoonful of Gold Dust washing powder in hot water, raise every portion of the sink with the Gold Dust solution, pouring some of the hot soda down the pipe to loose the grease that may have gathered there.

The Ticklemouse

—and his Sleepyland Adventures
 By Roy Rutherford Bailey with Davy and Dorfy

The Moving Millpond
 WHERE have you been with the fishing tackle? asked Willy Wishingmouse of the twins. Dorfy looked at Davy, and Davy looked at Willy. "I was going fishing this afternoon at the millpond. But when I got there old Squire Dwight wouldn't let me fish in it." "How's that?" broke in the Ticklemouse, quickly. "He owns the land all around it, you mean? Well, who owns the farm this side of there—Deacon Swift? I thought so! And he's a nice, kind man? Good! Then let's move the millpond over to his farm—besides, you won't have to walk so far." "Move—the pond?" The twins couldn't believe their ears, but the Mouse was already fumbling around in their box of toys. He chose a little red, dolly's hammock, a brass watch chain, and a small fishhook. "Come on, chills," he whispered and the four started across lots toward the millpond.

The Ticklemouse fastened the chain to the hammock, the hook to the chain. Then he helped the twins into an old flat-bottomed boat and rowed out into the middle of the pond. "Are you—ready, wish?" he called to Willy, left behind on shore. And in a trice the little red hammock had grown to half the size of the pond, which it covered like a net. The Mouse spread it out carefully as he rowed slowly along, whispering some soft, squeaky words, and the hammock changed to a net of shining steel. The chain, too, had grown to a great length, and sank with the net. The Mouse then rowed them back to where Willy Wishingmouse waited, and the three climbed out of the boat and waited. The Ticklemouse spread the rest of the long brass chain out in neat coils, then stopped and scratched his head in deep thought. "When does that night express pass through here?" he suddenly asked, with a quick look at his watch. "Just about time, I fancy," said Willy—and a long, tired whistle in the distance answered like a ghostly echo. The Mouse jumped for the fishhook—now as big as a logging hook—and sped across the farm toward the track, dragging the heavy chain after him. "You stay there, Willy," he yelled back. "And when you see the headlight, just cast a spell on the millpond—and freeze it!" The engineer of the night express didn't see the hurrying figure that lay in wait for him behind Squire Dwight's big elm, nor notice the quick fling that fastened the hook to the coupling of the last car. But he did feel the jerk that almost yanked the train off the track—and he did wonder, a moment later, what made his engine drag so much worse than usual! None the wiser, he hauled the frozen millpond clear over to Deacon Swift's broad acre, where it suddenly thawed at a word from Willy. Like a rocket, the night express leaped forward, dragging a big steel net by a heavy brass chain. And next morning old Doveville was staring at the miracle—the millpond had moved half a mile in one short night! So the story goes, were the passengers on the night express. For when the weight of the pond released it, the train shot ahead so suddenly that it reached the city on time for the first time in nearly nineteen years! At least, that's what the Ticklemouse told the twins next night—and the Ticklemouse always knows.

Save \$120 On Your Piano

They Who Read This May Profit

Some few weeks ago I answered a piano puzzle ad and in return received a Gold Bond Credit Check (value \$120.00) to apply on the purchase price of a piano. This offer was made by a Milwaukee piano house. They not knowing I was a piano dealer felt sure of a sale.

I have never made any use of it yet and have finally decided to give its value, \$120.00, to someone at home, so to the first one who cuts out this ad and brings it to my piano rooms with the idea of purchasing a piano I will accept of its value in full \$120.00, to be applied the same as first payment on any piano in stock. Remember this, you will not get a cheap piano, for I do not carry them in stock, but you can have one of the famous Newman Bros. pianos if you wish. I have not marked the prices to suit this ad. They remain just the same as before and the value of the credit gold bond, \$120.00, will apply on the regular price of piano.

Now remember it is the first one that applies, for I have only one gold bond credit check, so you will have to get a hustle on. The offer will stand open three days. If no one calls before that time the offer will close.

NEW BRIDGES TO BE CONSTRUCTED

BIG MAJORITIES FOR FOURTH
AVE. AND RACINE STREET
PROJECTS.

CARRIED IN EVERY WARD

Structures Will Be Built of Cement
and Steel and Will Cost
\$25,000 and \$17,000.

Janesville wants the proposed new
cement and steel bridges at Fourth
avenue and Racine street and is will-
ing to pay \$25,000 and \$17,000 there-
for. There can no longer be any
doubt regarding the sentiment of the
voters. The necessary two-thirds ma-
jority with some to spare was rolled
up at the polls yesterday in favor of
both propositions and on the face of
the returns the electors as a whole
overlooked such narrow considera-
tions as the structures that would more
directly benefit their own particular
buildings. Both propositions carried
by handsome margins in every ward.
The Fourth avenue question was
decided in the affirmative by a vote of
1,134 to 238—the margin being 896;
and the Racine street proposition by
a vote of 1,024 to 288—the margin be-
ing 736. In detail the returns were as
follows:

Fourth Avenue Bridge.		
	Yes.	No.
First ward	221	35
Second ward	212	27
Third ward	320	68

WISCONSIN MAY NAME THE BUTTER PRICES

Old Elgin Name May Be Sur-
planted by Another as Result of
Changes in Conditions.

Janesville grocers who have sold
their butter according to Elgin prices
for the past thirty-five years may
within the next few months see a
decided change not only in the prices
but also in the location of the butter
market itself.

Elgin, the word which marks the
standard and dictates the price of
butter throughout the country from
New York to California, is threatened
with elimination from the vocabu-
lary of the butter market.

This decarding of a name, which
through thirty-five years of constant
use had become a standard term, is
one of the incidents of the evolution
of the dairy industry and that newer
industry which for want of a better
name may be called the feeding of a
great city.

Little Elgin Butter Now.
In other words, there is little or no
genuine Elgin butter these days, be-
cause the greater portion of the milk
in the Elgin butter district is re-
quired to supply the babies and other
consumers in Chicago.

Recognizing these new conditions,
the members of the Elgin Butter
Board are rewriting its rules and by-
laws and enlarging the district so as
to include, if possible, all of Wiscon-
sin, part of Minnesota and part of
Iowa. The present Elgin district in-
cludes all of Illinois, a few counties
in southern Wisconsin and two coun-
ties in Iowa.

Reason For the Change.
Because Chicago draws practically
all the milk from the present Elgin
district, the board is forced to take
in additional territory. This will mean
an entire reorganization of the butter
board, with all the ceremonies of Wis-
consin and Minnesota, which care to
join the board having a voice in fix-
ing the standards and quoting prices.

It also means that with the Wis-
consin creameries in the majority,
the butter board may be moved from
Elgin to some Wisconsin city and the
prestige which once attached to the
name, Elgin, may be wiped out forever.

No other city has been chosen, but
Milwaukee, Madison and Fond du
Lac, Wis., have been mentioned.

NOVEL HOOK AND EYE

Both Parts Can Be Pinned on Dress
and Requires No Sewing.

A new kind of hook and eye that has
several distinct points of difference from
the other types has been designed by a
Pennsylvania woman. The chief feature
of the new article is that except in places
where there is great strain it is not nec-
essary to sew either part fast to the cloth-
ing. Both hook and eye are equipped
with safety pins by which they are
attached to the dress and it re-
quires a very short time to attach them.
Furthermore, if the positions are not
exactly right they can be easily and

PATENTED BY SAFETY PINS.

specially adjusted without the bother of
unpinning threads and sewing it over again.
If there is too much strain on the pins a
few turns of thread will make the parts
secure. The throat of the hook is un-
usually deep and protects it from being
easily disengaged, while a hump, after
the style of all modern hooks and eyes,
retains the eye in its adjusted position
on the hook. These hooks and eyes it is
said will cost no more than the other
kinds and will last just as long.

How True!
"Homely women angle for men,"
says the Philosopher of Folly, "but a
pretty girl depends on her curves."

Many Diseases of the Eye.
There are 48 distinct diseases of the
eye. No other organ of the human
body has so many.

Can You Afford A Weak Link In the Life Chain?

If you are forced to admit that the Health Link is growing weaker, suppose you look carefully after the cause.

Your own well-being and comfort may suggest determined effort to correct.

Perhaps you will permit a suggestion based upon some wide ex-
perience.

There is one particular thing which directly attacks the health of one
in every three of the users.

Its work is plain enough. Nerves, heart, stomach and other organs
becoming more and more unbalanced, but the real cause is
frequently unsuspected.

To demonstrate the real facts as applied to yourself, and
for your own satisfaction, it is suggested that coffee be abso-
lutely discontinued for 10 days and observe the results.

If you discover a stronger, better
acting heart, sturdier nerves and sounder
sleep, it will be reasonably clear that your
body is offering thanks for relief from the
daily drug, caffeine—the base of coffee.

When this destructive drug is discon-
tinued, Nature starts to repair the dam-
age.

You will probably receive much ben-
efit from simply leaving off coffee.

"It will greatly add to your comfort

to have a good, hot cup of well-made

"And I think she's rather partial to you."
"Do you, really, Mr. Duncan?"
"I do. Do you want to marry her?"
"Geel! I can't hardly wait! Only," Tracy continued, disconsolate, "it ain't no use, really. She's so purty an' swell an' old man Tutill's so rich—not like the Lockwoods, but rich all the same—an' I'm only the son of the livery stable man an' fat an' all that—"

"Nonsense, Tracey!" Nat interrupted firmly. "If you really want her and will follow the rules I give you it's a cinch."
"Honest, Mr. Duncan?"
"I guarantee it, Tracey. Listen to me." And Duncan expounded Kel-

"I WAS ONLY THINKING ABOUT ANGIE."

logg's rules at length, adapting them to Tracey's circumstances, of course, and throughout maintained the gravity of a graven image. "You try and you'll see if I'm not right," he concluded.

"Goah, I b'lieve you are," Tracey cried admiringly. "I'm just goin' to see how it works."

"Do, if you'd favor me, Tracey."

"Say, Miss-Nat, you've treated me somethin' immense."

"Your mistake, Tracey. I haven't treated anybody since I've been here. I'm on the wagon."

"I mean just now, when we was talkin' 'bout me an' Angie. I'd-I'd like to help you the same way if I could."

"You would?" Duncan eyed the boy apprehensively, wondering what was coming.

"Yes, indeed, I would. An' p'rhaps I kin tell you somethin' that will."

"Speak, I beg."

"You—er—you're tryin' to court Josie."

HELPFUL WORDS

From a Jamesville Citizen.

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region?

These symptoms indicate weak kidneys.

There is danger in delay. Weak kidneys fast get weaker. Give your trouble prompt attention.

Don's Kidney Pills act quickly. They strengthen weak kidneys. Read this Jamesville testimony.

Mrs. Thomas Bowles, 351 So. Main St., Jamesville, Wis., says: "You may continue to publish my endorsement of Don's Kidney Pills several years ago. I have taken this remedy off and on for a long time and it has always quickly relieved me of backache and other distressing symptoms of kidney complaint. I keep a supply of Don's Kidney Pills in the house and I consider them the best kidney medicine I have."

nothing," said she had a headache an' was goin' home. Roland went with her, but she didn't want him to. You just missed each other."

"Heavens, what a blow!"

"But Roland's takin' her home needn't upset you none."

"Thank you for those kind words, Tracey." Nat sighed and passed a troubled hand across his brow. "You're a true friend."

"I'm tryin' to be, Nat, same's you are to me." Tracey thought this over. "But you ain't foolin' me, are you?" he asked presently. "I mean 'bout bein' a true friend?"

"Why should I?"

"Ah, I dunno. You're so cur'us sometimes. I ain't never sure whether you mean what you're sayin' or not."

"Oh, don't say that."

"Well, I ain't the only one. Every body in town says they don't understand you half the time."

Duncan moved over to Tracey. His face was entirely serious. "Tracey," he said, dropping a hand on the boy's shoulder, "do you know, nothing in life is harder to bear than not to be understood?"

Tracey wrestled with this for a moment, but it was beyond him.

"Then why the dickens don't you talk so's folks 'll know what it's about?" he demanded heatedly.

"Because—hm!" Duncan hesitated, with his enigmatic smile. "Well, because the rules don't require it."

"What'd you mean by that?" Tracey exploded.

Nat couldn't explain, so he countered gently. "This is one of your Angle evenings, isn't it, Tracey?"

"Yep, but—"

"Well, you hurry along. I'll close up the shop."

To Duncan, now seated on the edge of an upturned box in a corner of the store, came an idea. He drew a roll of bills from his pocket and stripped off the top one.

"Here's \$5," he said to Tracey. "Gie's can usually be captured by judicious expenditures. I wish you luck."

"Ah, thanks, Mr. Duncan."

Lockwood, ain't you?"

"Oh!" said Nat. "So that was it! That's a secret, Tracey," he averred.

"All right. Only if you are she's your'n."

"Just how do you figure that out?"

"Oh, I kin tell. She was in here to-night with Roland."

"Tonight?"

"Yes, just afore you come home from prayer meetin'. She was lookin' for you, an' when she seen you wasn't here, she wouldn't wait for no soda nor

"Hut, Tracey!"

The boy paused at the door.

"What?"

"Remember what I told you. Don't you make too much love. Let Angie do that."

"Gosh, that 'll be the hardest rule of all for me!" A shadow clouded Tracey's honest eyes. "But I got to do it that way, anyway. I can't ask her to marry me yit. I can't afford to get married."

"It's a contrary world, Tracey, a contrary world!" sighed Nat in a tone of deepest melancholy.

"What makes you say that? You kin git married 's soon 's you want to."

"You think so, Tracey?"

"All you got to do 's ask Josie!"

"I'm almost afraid you're right."

"Why? Don't you want to git married?"

"Well—Nat smiled—"no. Don't believe I do, not just now, at any rate."

"Well, you don't have to if you don't want to. G'd night."

"Yes, I do," Nat told Tracey's back. "The rules say so. If the girl asks me I must."

He grimaced ruefully beneath his slap of a mustache. "Anyhow, I've got a few months left."

So the winter wore away, and as spring drew nigh upon our valley Duncan seemed to grow perturbed, even as he had been in the autumn before Betty went away.

Duncan urged Sam to move his household from over the store to a house. He pointed out that a separate residence distinctly befitted the dignity of a man who was at once a prominent inventor and one of Radville's leading merchants (vide a "Personal" in the late issue of the Radville Citizen), to say nothing of the social position of his daughter—namely, Betty. And the house Duncan had his ineptness upon upon was large enough to shelter Nat himself in addition to the Graham family.

Graham fell in with the scheme without a murmur of dubiety or dissent. Whitmore Nat proposed in Sam's understanding was right and feasible, and even if it wasn't really so Nat would make it so. They engaged the house and moved. Miss Ann Sophroniska Whitmarsh, a maiden lady of forty-five or thereabouts, popularly known as "Thorny," had been coming in by the day to "do for" old Sam in the rooms above the shop. She was engaged as resident housekeeper for the new establishment and entered upon her duties with all the discreet joy of one whose maternal instincts have been suppressed throughout her life. She mothered Sam, and she mothered Nat, and she panted in expectation of the day when she would have Betty to mother.

A Golf Story.

Footmen are noted for their canniness, and a story told by a Lancashire commercial traveler, who was up in Aberdeen a few days ago, shows that the men beyond the Tweed are still worthily upholding their reputation. The traveler in question was asked by a prospective buyer to subscribe to the prize fund for the local golf tournament. He parted with 5 shillings, and as he was interested in golf he remarked that he would like to be kept informed of the progress of the tournament so that he could look out for the result.

"Oh," said the customer as he picked up the 5 shillings and placed it securely in his pocket, "ye neednae do that. The tournament was held last Saturday." This was rather a staggerer for the latest contributor to the prize fund, but he retained curiosity enough to inquire who had proved the happy winner. The gulleless solicitor for subscriptions was quite undaunted, however. "The winner?" he said coyly, "Oh, just meself!"—Exchange.

Terrible Suffering.

Eczema All Over Baby's Body.

"When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a muslin cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Barling, Maine.

Hood's Sarsaparilla cures blood diseases and builds up the system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Alkey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my ill, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ill. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

The Jonesville Gazette, Nov. 9, 1870.—The straight Republican ticket was triumphant against Democracy and boiling Republicanism combined, at yesterday's election, Haszlett carried the county with a majority of 2,000; C. G. Williams was elected state senator; Conner, sheriff; Norcross will be district attorney; and Merrill goes to the assembly.

Mr. Peterson, Independent Republican, is elected member of the assembly in the first district, over Henry Austin, the regular nominee.

Mr. Mitchell, Democrat, is elected in the first Congressional District, over Judge Lyons, by a large majority.

Y. S. Fallows, Republican, for Superintendent of Public Instruction, and no Republican candidates for Congress in the Second, Third, Fifth and Sixth Districts are elected.

It is too late to determine with accuracy the result of the election held yesterday on members of Congress, but appearances indicate that the Republicans have everywhere maintained the ascendancy of the party except in New York, while in the border states we have made an important gain.

GAZETTE, JANESVILLE

For every tiny bird you'll see
A dozen hunters ready.

FORTY YEARS AGO

The Janesville Gazette, Nov. 9, 1870.—Election.—The straight Republican ticket was triumphant against Democracy and bolting. Republicanism combined at yesterday's election. Hazelton carried the county with a majority of 2,000; C. G. Williams was elected state senator; Pember, sheriff; Norcross will be district attorney; and Merrill goes to the assembly.

Mr. Peterson, independent Republican, is elected member of the assembly in the first district, over Henry Austin, the regular nominee. Mr. Mitchell, Democrat, is elected in the First Congressional District, over Judge Lyon, by a large majority. Fallow, Republican, for Superintendent of Public Instruction, and the Republican candidates for Congress in the Second, Third, Fifth and Sixth Districts are elected.

It is too late to determine with accuracy the result of the election held yesterday on members of Congress, but appearances indicate that the Republicans have everywhere maintained the ascendancy of the party except in New York, while in the border states we have made an important gain.

Jottings.—A young man on the west side, desirous of experiencing the sensation of being shot, stood before a large mirror and discharged a navy revolver at the reflection of his image. He shortly afterwards experienced the sensation of pain for the mirror.

George G. Rockwell, for several years past the telegraph operator at the Union Business office, has been promoted to the position of telegraph operator and clerk at the Northwestern Railway shops in this city, and assumed the duties of that office yesterday.

A strong west wind amounting to almost a hurricane, prevailed in this vicinity during all of last night, with quite a flurry of snow at an early hour this morning. The ground was considerably frozen.

NO-DYSPEPSIA; INDIGESTION, GAS OR-ANY OTHER STOMACH DISTRESS

Relief in Five Minutes Awaited Every man or woman who suffers from a bad stomach.

Nothing will remain undigested or sour on your stomach if you will take a little Dipsopain occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

But what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, belching, gas on stomach, heartburn, headaches from stomach, nausea, bad breath, water brash or a feeling like you had swallowed a lump of lead, or other disagreeable ailments. Should you be suffering now from any stomach disorder you

can get relief within five minutes. If you will get from your pharmacist a 50-cent case of Dipsopain you can always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or sleepless nights or headaches or stomach misery all next day and, besides you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Dipsopain can be obtained from your druggist and contains more than sufficient to thoroughly cure the worst case of indigestion or dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the stomach or to cure a Stomach Headache.

You couldn't keep a handkerchief or more useful article in the house,

A. Seventy years.
